

Biosolids in Alberta

15 May 2018 | Calgary Alberta

This seminar will offer attendees a primer on working with residuals from wastewater treatment processes, collectively called biosolids. There will be an overview of existing regulations in Alberta as well as looking at some proposed changes being considered to expand existing rules. This session will also include existing uses, projects and operations to provide attendees with the contacts, tools and useful lessons learned to bring back to their organizations.

There will be a Calgary Composting Facility tour the day before the seminar, Monday May 14. Included in registration, PPE required.

Topics

- Agricultural land application of municipal biosolids and upcoming guidelines for use of biosolids reclamation.
- Fort McMurray WWTP Composting Facility – 10 years of operational experience.
- Results from scientific review of biosolids and risk assessment.
- Odour management and biosolids.

Who Should Attend

- Administrators
- Operations Staff
- Supervisors
- Consulting Engineers
- Regulators
- Municipal Utility Providers

0.6 CEUs approved for Alberta attendees
